

Key Integration Strategies – CVSP

- Ensure personnel working on SHSP and related programs and projects are familiar with MCSAP requirements.
- Identify SHSP emphasis areas and/or strategies related to CMVs and include them as State-specific objectives within the CVSP.
- Use data for problem identification consistent with the SHSP.
- Incorporate SHSP education and enforcement strategies into the CVSP (i.e., safety belts, aggressive driving, work zones, etc.).
- Encourage State trucking associations and commissions to collaborate with a broad range of safety stakeholders.
- Collaborate with law enforcement, motor vehicle administrators, and engineers to develop joint training and campaign programs.
- Develop an Award for Excellence in Commercial Vehicle Safety, in collaboration with the State Association of Chiefs of Police to acknowledge local law enforcement agencies.
- Integrate safety and SHSP elements into the State and local freight planning processes.
- Reach out to local stakeholders by training, certifying, and collaborating with them on CMV inspection programs.
