

PROMPT LIST 1

Planning Stage Audit					
General Topics	Design Issues	Intersections	Interchanges	Environmental Constraints	Safety Aspects Not Already Covered
1 Scope of project, function, traffic mix, road users	1 Route choice 2 Impact of continuity with the existing network	1 Location, spacing types 2 Readability (perception) by drivers	1 Location, spacing 2 Types, layouts	1 Surrounding terrain 2 Weather, sunlight	Flooding, rail crossings, roadside parking, special events, emergency vehicles, rest areas, etc
2 Type and degree of access to property and developments	3 Broad design standards	3 Road users, traffic mix	3 Ramps, terminal intersections	3 Noise barriers, animal fencing	
3 Major generators of traffic	4 Design speed	4 Design consistency	4 Design consistency	4 Animal crossings	
4 Staging of construction	5 Design volume and traffic characteristics	5 Number of lanes	5 Number of lanes	5 Visual distractions	
5 Future reconstruction projects	6 Right of way			6 Unstable land	
6 Wider network effects	7 Combination of features
