

Key Integration Strategies - HSP

- Ensure personnel working on SHSP and related programs and projects are familiar with HSP performance measures.
- Conduct data analysis to focus on the greatest problem areas consistent with the SHSP emphasis area identification process.
- Focus the grant development and selection process on priority problem areas consistent with SHSP emphasis areas and strategies, e.g., revise grant solicitation announcements to include SHSP priorities.
- Bring multiple agencies together during the programming process to improve project selection and ensure consistency with SHSP priorities and strategies.
- Provide grant funds to local coalitions, nonprofits, and advocacy organizations to address issues specific to their jurisdictions and areas of expertise.
- Use peer exchanges to learn from the experiences of other States.
