

Highway Safety Improvement Program (HSIP) Webinar Series

What is the purpose?

The purpose of this webinar series is to highlight how agencies can integrate the Safe System Approach in the HSIP and SHSP. Zero is our goal, a Safe System is how we get there.

Who should attend?

Practitioners from State, Federal, local, and Tribal agencies involved in State SHSP and HSIP Implementation efforts. Participants may include agency directors, program managers, engineers, designers, planners, analysts, and other safety stakeholders interested in learning new techniques to improve the HSIP.

"The Safe System approach aims to eliminate fatal & serious injuries for all road users. It does so through a holistic view of the road system that first anticipates human mistakes and second keeps impact energy on the human body at tolerable levels. Safety is an ethical imperative of the designers and owners of the transportation system."¹

For more information regarding the HSIP webinar series please contact Danielle Betkey at danielle.betkey@dot.gov or 202-366-9417.

Safe System and the HSIP*

MARCH 2021

Safe System, the HSIP, and the SHSP
Integrating the Safe System Approach in the HSIP and SHSP.

JUNE 2021

SHSP and Safety Culture
Changing Safety Culture as part of the SHSP.

SEPTEMBER 2021

Developing and Administering Systemic Safety Projects
Highlighting systemic safety project success stories.

DECEMBER 2021

Integrated Approach to Safety
Incorporating the 4Es into roadway safety management.
