

Intersection Safety Public Service Announcement Roundabouts :30 Audio

Mom's voice

Are you ready kids?

[Sound of seat belt buckles clicking - car engine starts and drives away]

Children's voices

(singing) *The wheels on the bus go round and round, round and round, round and...*

[Sound of horn from fast car approaching- brakes screech, Mom gasps]

Mom's voice

Is everyone ok?

Narrator voice

Traditional intersections can be dangerous, but roundabouts are a safer alternative.

Children's voices

Really!?

Narrator voice

Roundabouts are safer for driving, walking and bicycling. They actually IMPROVE traffic flow and reduce severe crashes by 80 percent.

Mom's voice

80 percent?

Narrator voice

Roundabouts ... save lives.

Children's voices

(singing) *The people on the street go round-a-bout, round-a-bout, round-a-bout. The people on the street go round-a-bout...*
