

## SAFETY CROSSWORD PUZZLE

By: Felix Delgado, FHWA Office of Safety

### ACROSS

2 Pedestrians, cyclists, and the elderly.

4 Calculate crashes under different scenarios using this.

5 One of the safest intersection types.

10 Avian-sounding ped safety countermeasure.

14 Elements each State SHSP must identify.

16 Evidence-based decision making is....

17 Safe Routes to School, in short.

18 These reduce crash-related injuries and deaths by half.

19 Lower values on this indicate higher impact countermeasures (abbr.).

20 Acronym for carpool lane.

21 This steel barrier keeps you away from fixed-object hazards.

22 Acronym for the law that gives citizens the right to access information.

23 The master safety plan and a component of 7 down (abbr.).

26 Three-digit source of real-time road and transit info.

27 1893 predecessor to today's FHWA.

28 In 2015, FHWA identified Alabama as a focus State for \_\_\_\_\_.

29 Red-light cameras are an example of this.

30 Quantifiable indicators used to assess progress.

31 Unlit road signs are visible at night due to this engineered characteristic.

### DOWN

1 Provides transportation training and technical assistance to tribal governments (abbr.).

3 President who signed into law the creation of USDOT.

6 In 2015, FHWA identified New Jersey as a Focus State for ped/bike and \_\_\_\_\_.

7 A safety funding source and core Federal-aid program (abbr.).

8 Rural road drop-off mitigation.

9 Installed to help drivers see pedestrians, bicyclists, and the roadway configuration more clearly at night.

11 Read this before you "sign."

12 These FHWA-run events help you learn from and share with your counterparts.

15 Source for local-level training, information, and technology updates (abbr).

24 Intersections should meet at least one of these before a signal is installed.

25 USDOT's #1 goal.

**Answers on page 18.**
