In Reply Refer To:
WZ-303A

Steve Zimar
Product Manager
Eastern Metal/USA-SIGN
1430 Sullivan St
Elmira, NY  14901

Dear Mr. Zimar:

This letter is in response to your request for the Federal Highway Administration (FHWA) to review a roadside safety system for eligibility for reimbursement under the Federal-aid highway program.

Name of system:  C-301, C-801, and C-802 Sign Stands
Type of system:   X-Footprint compact portable sign stands
Test Level:    NCHRP Report 350 Test Level 3
Testing conducted by:  N/A
Date of request:  March 15, 2012

Decision

The following devices are eligible, with details provided in the form which is attached as an integral part of this letter:

•  C-301, C-801, and C-802 Sign Stands

Based on a review of details submitted by the manufacturer certifying the device described herein meets the crash test and evaluation criteria of the National Cooperative Highway Research Program (NCHRP) Report 350, the device is eligible for reimbursement under the Federal-aid highway program.  Eligibility for reimbursement under the Federal-aid highway program does not establish approval or endorsement by the FHWA for any particular purpose or use.

The FHWA, the Department of Transportation, and the United States Government do not endorse products or services and the issuance of a reimbursement eligibility letter is not an endorsement of any product or service.

Requirements

To be found eligible for Federal-aid funding, roadside safety devices should meet the crash test and evaluation criteria contained in the NCHRP Report 350 or the American Association of State Highway and Transportation Officials’ Manual for Assessing Safety Hardware (MASH).
Description
The device and supporting documentation are described in the attached form.

This letter corrects product identifying information in our letter WZ-303 to you dated November 30, 2011. That letter misidentifies the C-802 sign stand as a C-902 sign stand. The C-902 stand was previously covered by our letters WZ-07, WZ-13, and WZ-56. WZ-303 covers the C-302 sign stand and the C-802 sign stand (erroneously referred to as C-902).

You also noted that Eastern Metal/ USA-Sign is now offering identical stands to the C-302 and C-802 stands except that they incorporate a lower profile base. This smaller base is required in order that the stands will fit into certain storage containers. These stands are identified as Models C-301 and C-801.

Summary and Standard Provisions
Therefore, the system described and detailed in the attached form is eligible for reimbursement and may be installed under the range of conditions tested.

Please note the following standard provisions that apply to FHWA eligibility letters:

- This finding of eligibility does not cover other structural features of the systems, nor conformity with the Manual on Uniform Traffic Control Devices.
- Any changes that may influence system conformance with NCHRP Report 350 criteria will require a new reimbursement eligibility letter.
- Should the FHWA discover that the qualification testing was flawed, that in-service performance reveals safety problems, or that the system is significantly different from the version that was crash tested, we reserve the right to modify or revoke this letter.
- You are expected to supply potential users with sufficient information on design and installation requirements to ensure proper performance.
- You are expected to certify to potential users that the hardware furnished has the same chemistry, mechanical properties, and geometry as that submitted for review, and that it will meet the crash test and evaluation criteria of the NCHRP Report 350.
- To prevent misunderstanding by others, this letter of eligibility is designated as number WZ-303A and shall not be reproduced except in full. This letter and the test documentation upon which it is based are public information. All such letters and documentation may be reviewed at our office upon request.
- This letter shall not be construed as authorization or consent by the FHWA to use, manufacture, or sell any patented system for which the applicant is not the patent holder. The FHWA does not become involved in issues concerning patent law. Patent issues, if any, are to be resolved by the applicant.
The Eastern Metal / USA-Sign stands are patented products and considered proprietary. If proprietary systems are specified by a highway agency for use on Federal-aid projects: (a) they must be supplied through competitive bidding with equally suitable unpatented items; (b) the highway agency must certify that they are essential for synchronization with the existing highway facilities or that no equally suitable alternative exists; or (c) they must be used for research or for a distinctive type of construction on relatively short sections of road for experimental purposes. Our regulations concerning proprietary products are contained in Title 23, Code of Federal Regulations, Section 635.411.

Sincerely yours,

Michael S. Griffith
Director, Office of Safety Technologies

Request for Federal Aid Reimbursement Eligibility Of Highway Safety Hardware

Date of Request: March 15, 2012  ☑ New  ☐ Resubmission

Name: Steve Zimar
Company: Eastern Metal / USA-Sign
Address: 1430 Sullivan St Elmira, NY 14901
Country: USA
To: Michael S. Griffith, Director
FHWA, Office of Safety Technologies

I request the following devices be considered eligible for reimbursement under the Federal-aid highway program.

<table>
<thead>
<tr>
<th>System Type</th>
<th>Submission Type</th>
<th>Device Name / Variant</th>
<th>Testing Criterion</th>
<th>Test Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>'W2': Crash Worthy Work Zone</td>
<td>☑ Physical Crash Testing  ☐ FEA &amp; V&amp;V Analysis</td>
<td>C-301, C-801, and C-802 X-Footprint sign stands</td>
<td>NCHRP Report 350</td>
<td>TL3</td>
</tr>
</tbody>
</table>

By submitting this request for review and evaluation by the Federal Highway Administration, I certify that the product(s) was (were) tested in conformity with the NCHRP Report 350 (Report 350) and that the evaluation results meet the appropriate evaluation criteria in the Report 350.

Identification of the individual or organization responsible for the product:

| Contact Name:            | Steve Zimar | Same as Submitter ☑ |
| Company Name:            | Eastern Metal / USA-Sign | Same as Submitter ☑ |
| Address:                 | 1430 Sullivan St Elmira, NY 14901 | Same as Submitter ☑ |
| Country:                 | USA | Same as Submitter ☑ |

PRODUCT DESCRIPTION

Modification to Existing Hardware Non-Significant - Effect is positive or Inconsequential

This letter corrects product identifying information in FHWA letter WZ-303 dated November 30, 2011. That letter misidentifies the C-802 sign stand as a C-902 sign stand. The C-902 stand was previously covered by FHWA letters WZ-07, WZ-13, and WZ-56. Wz-303 covers the C-302 sign stand and the C-802 sign stand (erroneously referred to as C-902).

Eastern Metal/USA-Sign is now offering identical stands to the C-302 and C-802 stands except that they incorporate a lower profile base. This smaller base is required in order that the stands will fit into certain storage containers. These stands are identified as Models C-301 and C-801 and are illustrated in the attached product literature.

CRASH TESTING

A brief description of each crash test and its result:

<td>Same as Submitter ✓</td>
</tr>
</tbody>
</table>

ATTACHMENTS

Attach to this form:

1) A copy of the full test report, video, and a Test Data Summary Sheet for each test conducted in support of this request.

2) A drawing or drawings of the device(s) that conform to the Task Force-13 Drawing Specifications [Hardware Guide Drawing Standards]. For proprietary products, a single isometric line drawing is usually acceptable to illustrate the product, with detailed specifications, intended use, and contact information provided on the reverse. Additional drawings (not in TF-13 format) showing details that are key to understanding the performance of the device should also be submitted to facilitate our review.

Coil-Flex Wind-Deflectable C-Stand for ALL Roll-Up Signs

- C-300 Stands available with a C-301 standard base or a C-302 heavy duty, larger base.
- Coil-Flex (one steel coil-spring) provides wind-deflection and lateral stability in all conditions.
- Galvanized steel legs offer maximum resistance to rust and corrosion. The 2-position, 2-piece telescoping legs adjust for maximum stability on uneven terrain and road shoulders. Legs available in Short (38” extended) -or- Long (50” extended).
- C-300 Stands are available with a Direct-Drive™ or Kick-Lever™ leg-release system.
- Roll-Up Signs attach to the C-300 Series Stands with a Spin-Handle™ or Quik-Attach™ lever. Attachments are universal and function with ALL C-Signs™ and R-Signs.
- C-300 Series Stands are NCHRP-350 Accepted for use with ALL Roll-Up Signs.
- High quality construction backed by a one year warranty on our workmanship.

C-800 Aluminum Series
Compact C-Stands™

Coil-Flex Wind-Deflectable C-Stand for ALL Roll-Up Signs

- C-800 Stands available with a C-801 standard base or a C-802 heavy duty, larger base.
- Coil-Flex (one steel coil-spring) provides wind-deflection and lateral stability in all conditions.
- Aluminum legs offer maximum resistance to rust and corrosion and are lighter weight compared to C-300 Series Galvanized Steel legs. The 2-position, 2-piece telescoping legs adjust for maximum stability on uneven terrain and road shoulders. Legs available in Short (38” extended) -or- Long (50” extended).
- C-800 Stands are available with a T-Pin, Direct-Drive™ or Kick-Lever™ leg-release system.
- Roll-Up Signs attach to the C-800 Series Stands with a Spin-Handle™ or Quik-Attach™ lever. Attachments are universal and function with ALL C-Signs™ and R-Signs.
- C-800 Series Stands are NCHRP-350 Accepted for use with ALL Roll-Up Signs.
- High quality construction backed by a one year warranty on our workmanship.
