Everyone benefits from walking. But walking needs to be safe and easy. Take a walk with your child and use this checklist to decide if your neighborhood is a friendly place to walk. If you find problems, there are ways you can make things better.

**Getting started:** Pick a place to walk, like the route to school, a friend's house, or just somewhere fun to go. Read over the checklist before you go, and as you walk, note the locations of things you would like to change. At the end of your walk, circle an overall rating for each question. Then add up the numbers to see how you rated your walk.

How did your neighborhood rate?
26 - 30 Celebrate! You have a great neighborhood for walking.

21 - 25 Celebrate a little. Your neighborhood is pretty good.

16 - 20 Okay, but it needs work.

11 - 15 It needs lots of work. You deserve better than that.

5 - 10 Call out the National Guard before you walk. It's a disaster area.

Did You Find Something That Needs to be Changed?

The next page has suggestions for making neighborhoods better places for walking that match up with the problems you identified.

During your walk how did you feel physically? Could you go as far or as fast as you wanted? Were you short of breath, tired, or did you have sore feet or muscles? The next page also has suggestions about walking for exercise.
But before you do, learn about ideas other communities are trying. A new concept called traffic calming is transforming neighborhood streets from roads that encourage speeding to places that invite people to walk.
