

Key Leadership, Collaboration, and Communication Strategies:

- Assign leaders who are credible, accountable, and have excellent interpersonal and organizational skills.
- Meet with new leaders to brief them on their role in supporting the SHSP and to persuade them to get involved.
- Establish multidisciplinary collaborative efforts involving the 4E's of safety.
- Clearly and broadly communicate the SHSP vision, mission, and goals to all partners and stakeholders.
- Use peer exchanges to learn from the experiences of other States.
- Incorporate safety collaboration performance objectives into the position descriptions of those involved in SHSP implementation.
- Establish a regime where the chairperson for the regularly scheduled high-level safety meetings rotates among the various stakeholder groups.
